

Treutlen County Public School System Staff Acceptable Use Policy/Procedures

Internet access is available in the Treutlen County School System. We are very pleased to bring this access to our schools and believe the Internet offers vast, diverse and unique resources to our students and staff. Our goal in providing this service is to promote educational excellence in the curriculum by facilitating communications for resource sharing and innovation. On a global network it is impossible to control all materials and an industrious user may discover controversial information. In an effort to provide a safe environment for our users, a monitoring system has been deployed within the Treutlen County Wide Area Network. It is the position of the Treutlen County School System (TCSS) that the valuable information and interaction available on this worldwide network far outweigh the possibility that users may procure material that is not consistent with the educational goals of the school system.

Internet Guidelines

The Treutlen County School System guidelines are provided so that users are aware of the responsibilities they are about to accept. If a TCSS user violates any of the following provisions, his or her access may be terminated. Disciplinary actions may be taken which could result in appropriate legal action being initiated.

Teacher Due Process

If a Treutlen County School System teacher violates any of the following provisions, his or her access may be terminated. Disciplinary actions may be taken which could result in suspension or appropriate legal action being initiated. The site administrator or designee will investigate allegations of teacher violations of Internet Acceptable Use Policy/Procedures. The teacher will be notified and provided an opportunity to respond to the allegations.

Internet Filtering

The Treutlen County School System is presently using an advanced filtering solution to access and manage the type and level of online information that is most appropriate and relevant to the system's educational needs and goals, as well as reduce legal liability. The filtering software in place uses a sophisticated research process involving human review to continuously comb, analyze, and catalog each Internet site. This provides the most powerful, flexible tool available for assisting in the enforcement of the acceptable use policies (AUP) for the Treutlen County School System. It is prohibited to use personally owned equipment such as, but not limited to, smart cards, wireless cards, etc, to bypass the filtered Internet that TCSS has put in place. Software and websites that are used to bypass the filter are prohibited. The Treutlen County Board of Education is not responsible for the content accessed by users who connect to the Internet on school-owned devices via their personal or public Internet access points.

Vandalism

Vandalism will result in immediate cancellation of privileges and possible disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy. The use of TCSS computer equipment should not be used for unauthorized access to other networks.

User Information

All TCSS users must complete and return a new Acceptable Use Policy Signature form at least annually.
