

## *Treutlen County School System*

### *Virus Protection*

The Treutlen County School System is currently using Avast for its virus protection. Avast is one of the world's most trusted antivirus software packages, with over 210 million users worldwide. It regularly ranks among the best by independent reviews. The software is provided free of charge to school systems. As part of the agreement, parents, teachers and students can also use the software free. To learn more about Avast, please check out their website for more information.

The Avast website is:

[www.avast.com/students](http://www.avast.com/students)

## **Important Notice:**

**The Treutlen County School system is not responsible for the any issues that may arise from downloading or using Avast.**
